Re: Federal regulations concerning the inspection, re-inspection, periodic surveillance, response activities and management planning for asbestos in the Dumas ISD.

I am pleased to advise you that Dumas ISD works diligently to maintain compliance in all areas with the Federal AHERA regulations that govern asbestos in schools. We have an ongoing process of updating the management plans for each school campus, and in accordance with regulations, we do periodic surveillance of asbestos in June and December of each year. This required process determines if any changes have occurred that require specialized maintenance.

Even though Dumas ISD has very little asbestos, mainly floor tile which is the safest and most manageable type of asbestos, we make every effort to protect the well being and health of all. If you desire to review the asbestos management plan for any school, a copy is available for your viewing at each school or at this office at 411 Miller Avenue.

If you have any questions concerning DISD Asbestos Plans please call me at 806-935-4710.
